## MEXICANS IN PROTEST ON HAULING DOWN OF FLAG IN CLEVELAND

Representations were made to the State Department yesterday by officials of the Mexican embassy against the alleged hauling down of the Mexican fing from the consulate of that country in Cleveland, Ohio, on July 4. It was stated by officials at the embassy that the flag had flown until about 2 p.m., when the chief of police directed that it be hauled down, as he said it should not be flown. The company's plan for collecting the half-cent tax is to sell passengers paper bridge tickets at the rate of two for a very considerable addition to the camp equipment, the committee ran in debt, and has been obliged to borrow money in anticipation of this year's contributions. It is hoped, therefore, that not only former contributors, but others who have never given, will rally to the support of this important work for underprivileged mothers and children unable to provide their own outing. # **GERMANS TO ASK**

May Resort to Barter.

May Resort to Barter.

The suggestion was made in an informed German quarter yesterday that there must be recourse to the Russian system of barter if Germany is to go on at all. Unable to pay the American cotton grower and the copper miner in any kind of acceptable currency and without coin, the German manufacturer must offer in return for the raw material a certain proportion of the finished product into which it is made up. It is fully realized by the Germans that any such plan would encounter bitter opposition from the labor interests of the countries with which Germany seeks to barter. But that in their opinion as obtainable here is the only course open to the maintenance of German industries. And if they close down through lack of market for their products, it is declared that the result will be a tremendous addition to the unemployed classes in Germany, result in great dissatisfaction and the probable overturn of the present government and the substitution of a more radical regime.

Officials here have noted in some French quarters a tendency to discuss the possibility of heavy payments in kind from Germany with a resultant lessening of the cash commitments, but it was believed that strong opposition would be raised to a readjustment of reparations along such lines. Government securities are held very generally by small French investors, it was explained, who would resent the effect of lost German payments, while French labor and industry would fight the receipt of great quantities of German goods entering into competition with the output of France.

BARBOURVILLE, Ky., July 8.—Gov. Morrow late today ordered troops to move from Hopkinsville and Livernore to Madisonville when county authorities there advised him the situation at a strip mine proved threateneing and that local authorities would be unable to handle the situation if trouble developed, as they

anticipated.

Fifty-five men are due to arrive in Madisonville early tomorrow. The cavalry troop from Hopkinsville will be equipped with machine guns. while the infantry from Livermore will carry its regular field equipment.

could be expected in the near future. Germany, it was explained, must purchase gold in America, England and other foreign countries and, with the still decreasing purchasing power of the paper mark outside of Germany, these purchases could no longer be made.

OHIO MINERS THREATENED.

Union Men Declare Operations Will Be Halted at Hillside.

Be Halted at Hillside.

By the Associated Press.

GALLIPOLIS, Ohio, July 8.—Threats that they would stop work in Hillside mines, near Cheshire, Monday if operations are resumed with non-union miners were sent here today by union miners of Pomeroy, according to Sheriff Swanson. Operations in the mines were stopled yesterday after the Pomeroy miners had flourished firearms in the faces of the non-union workers.

Sheriff Swanson immediately announced he wound appeal to Gov. Davis if any attempts are made to carry out the threat. At the request of operators of the Cheshire mines Swanson today swore in sixteen deputies, who will be armed and placed on patrol duty in the highways between Cheshire and Pomeroy.

Up to Local Authorities.

Up to Local Authorities.

COLUMBUS, July 8.—Law enforcement in Ohio coal mining regions in the event of mine strike trouble was put squarely up to local officials throughout the state today by Federal Judge Sater and Gov. Davis here. Orders that United States marshals proceed to the Consolidated Coal and Coke Company properties in Perry county temporarily were held up by Judge Sater At practically the same time Gov. Davis issued a statement declaring county and municipal law enforcement officers in the mining regions of Ohio "will be held to strict account" if there are strike disorders.

There were many quaint features about the marriage of Princess Marie of Rumania and King Alexander of Jugoslavia. On her return from church the bride stepped over a band of cloth hung between the gateposts. This represented crossing the moat and her entry into a new life. Then she took a sieve of wheat and sugar, which she threw in handfuls into the corners of the courtyard. The old custom is for the sieve to be thrown over the walls, but those of the palace were too high for this. The new queen then approached the palace, carrying bread and wine, and her final duty was to embrace a child, to whom she gave a garment which she herself had made.

The action of the congregation followed adoption recently of a resolution by a local temperance society that grape juice be used in the sacrament of holy communion instead of wine.
